Gentlemen:

Subject: #20 Battery Combustion Stack

This letter serves as formal notification of our intention to initiate a compliance demonstration program for #20 Battery Combustion Stack on April 11, 2002. Measurement of Filterable Particulate Matter, Nitrogen Oxides, Sulfur Dioxide and Visible Emissions will be conducted.

The sampling methods and equipment employed will be those referenced in 40 C.F.R. Part 60, Appendix A, most recent revision. These methods were outlined in the test protocol previously submitted.

This tentative schedule is contingent upon normal operations of #20 Battery and acceptable weather.

Questions regarding this program should be referred to Mr. W. C. Graeser at (412) 233-1467.

RECEIVED

MAR 28 2002

Air Protection Division (3AP12)

Very truly yours,

R. R. Terza  
General Manager
